

THE STUDY'S GOALS AND DESCRIPTION

- Morgan Hill's 2005 General Plan includes developing "an extensive network of trails and parks along local creeks, connecting open spaces and recreation facilities (joint-use park and flood control agreements)."
- The study depicts the long-range recommendations
- **Off-Street Connections**
 - Creek Trails
 - Open Space Trails
 - Park Trails
- **On-Street Connections**
 - Connections where off-street trails are not possible

ENVIRONMENTAL PROTECTION

- **Habitat Types**

- Non-native Grassland
- Oak Woodlands
- Serpentine Grassland
- Riparian
- Wetlands

- **Regulatory Setting**

- Federal Endangered Species Act
- Santa Clara Habitat Conservation Plan / Natural Communities Conservation Plan
- California Endangered Species Act
- California Native Plant Society
- Special Status Species Requirements

TYPES OF TRAILS

- **Paved Trail**
 - Multi-Use trail, Primary trail type in developed areas
 - 12' wide
 - Asphalt Paving
- **Sidewalk Trail Connection**
- **Improved Trail**
 - Soft surfaces, such as Decomposed Granite
 - 6' Wide
- **Unpaved Trail**
 - access to open spaces and underdeveloped areas and ridges
 - 5' Wide
 - Native Soil (Earth) or Bark

SPECIFIC TRAIL SEGMENTS

- **Major Corridor Trails**

- Coyote Creek Trail
- Western Edge: El Toro Trail
- Madrone Channel Trail
- East-West Connections: Dunne Avenue, Main Street, Cochrane Road

- **Additional Opportunities**

- West Little Llagas Creek Trail
- Jackson Oaks Open Space Trail
- Trail Connections to the City Center
